#### HERBERT BISMARCK.

At a Banquet he Speaks of Germany in East Africa.

WISSMANN'S WORK COMMENDED.

In Colonial Matters we are Only in the Kin dergarten, so to Speak"-Stanley and his Followers.

(Special to THE HERALD—Examiner Dispatch, Brillin, Dec. 5.—[By cable to the New York Herslif.]—Count Herbert Bismarck gave last night in his rooms in the Koning-Ratzer strasse, one of these parlimentary banquets which his hospitality has rendered famous. The health of Stanley, Emin Graveurauth, Wissmann and the Heroid was pledged again and again in great flow-ing tankards of Hoffraun or bumpers of champagne. To the little group, of which your correspondent was one, Count Bis-marck spoke as follows: "As regards East Africa, it is difficult

for me to say more on the subject than I have said in the reichstag. Major Wissmann has made a brilliant record, not only as a dashing officer and explorer, but as a man of science. He is the only German who has crossed that continent twice, and he ranks among the most distinguished German travelers. He had been eight or German travelers. He had been eight or nine years in Africa before we managed to secure his services. No other German has such a record behind him. I have already praised the work he has done in the rechtstag. Should be succeed as well in pacifying the southern districts as he has the others, we may ask him to come back to Berlin and tisten to this suggestions and advice. What will then be done will depend of course very much on what the government of the East Africa company decides on. What has just happened will give that enterprise fresh impetus. It will, however, be at least three months before we can come to any difinite conclusion in the matter and bring the question in proper shape before the

difinite conclusion in the matter and bring the question in proper shape before the public.

"Herr Voksen, a merchant, who has been in East Africa, and in whom the company has every confidence, is going out there again before long as commercial agent of the company. He was in East Africa too in the employ of a German firm for many years. He will consult with our consult at Zanahar, who is on excellent terms with the British consult there, and will then, after taking the matter over with Major W as mann, make a formal report to the com any. Then negotiations will begin between the company and this government which will be brought to a satisfactory conclusion, we hoped before 'spring. The government does not forget that the principal object to be attained in East Africa is the suppression of the slave trape. This is the object for which the rolotatag has supplied money. Great results may be expected from the congress now in session working in the interest of civilization at Brussels. In that matter we simply followed the general sentiment of the German people. We have a good seal of work, not adways pleasant work either. We found public opinion to be in favor of giving the matter a fair trila-of waiting for the chiesen to be properly batched. "He colonial matters we are only beginning in the kindergarten, so to speak. What are four or free years in the history of colonial enterprises? I have been charry of expressing an opinion on these matters, but now we are carried on the pressing wave of goldic opinion. The Kalser and chancellor were early

[Examinor Dispatch—Special to The Hersain.]

New Youn, Dec. 5.—The Hersid has the following cable from its correspondent. Mbikidec: Noon—Stanley's expedition, accompanied by the force sent out by the Hersid, arrived here safely to day. All the Europeans connected with the caravan are well with the exception of Stevens, commissioner of the New York World, who has been struck down with fever and lies in my tent very ill. Stanley is bringing with him 180 of Emin Pasha's people. Many of these persons are aged, decrept, or sick, and are all being carried down to the post by Stanley's Zamidar men. The troops and carriers in Stanley's command elicitie, unbounded admiration of every one. They are under the most perfect discipline, and when on the road march in that perfect order which could only be expected of a well-trained and well-provisioned army while you der the confers of Major Wisse.

Acting under the orders of Major Wiss-mann, Licutement Schmidt and a few sol diers are accompanying him to the post. It is their duty to slightly precede the men in the order of the march, and to make all preparations for the company comfortably at the various places selected for nightly halts.

Manchester Gas Workers Out.

Lernon, Dec. 5.—The men employed in the municipal gas works at Manchester recently lodged a notice that they were about to strike and were locked out. Non-union men have been engaged and are fed and lodged in the gas works. The men locked out have assumed a menacing atti-tude. The supply of gas is not adequate at hight, and the town is only half lighted. The new British ship King Robert, from Glasgow August 3 for San Francisco, has been burned off Cape Horn.

### How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and con-stipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. acts with extraordinary power and efficacy.
